PO Box 1041,

Newsletter 02-06

There are number of new students who have joined the school in this term. However the total attendance is low. Please make every effort to attend. As a courtesy, please inform your teacher early if your child will be absent from school.

Parents-teachers meetings will be scheduled in coming weeks. Dates and time are being worked out and will be announced in late May.

Last year parents were allowed to sit in the classroom to help the teachers. We found that it has been disruptive to the normal conduct of the lessons instead of being effective. Therefore we request all parents to refrain from sitting in the classrooms

Visit from AHES

Jean-Paul from AHES will be visiting to our school on 3rd of June. He wants to talk to the students and look at their work. He will arrive just before the school starts hence please endeavour to come before 2:00PM.

Sports Meet

A list of students' names and their age for sports meet was sent to all the parents and also displayed on the notice board so that they could ensure that the details of their children are recorded correctly. Tamil is a more logical language than most other languages.

"...Interestingly, the Tamil word for vowels, Uyir means life, and the word for consonants, Mey means both body and reality. Neither life nor body can exist without the other. ..."
